I am an energetic and ambitious individual with a great passion and skills for Computer Science. As a Computer Science graduate I can put into practice my knowledge and skills, ultimately benefiting the operations of the organisation that I work for. I am determined, always willing and eager to learn new skills. I make commitment, take responsibility and I never give up until I get my target.

## Experience Fresh

| Company       | Designation                          | Duration           |          |
|---------------|--------------------------------------|--------------------|----------|
| Shoaib Sports | Full Stack Web Developer (Sponsored) | Jan 2019 - Present | 3 months |

## Work History

|                                      |                               |
|--------------------------------------|-------------------------------|
| Shoaib Sports                        | Jan 2019 - Present (3 months) |
| Full Stack Web Developer (Sponsored) | Lahore., Pakistan             |

I was hired to develop their Web Platform "MaximaFitness Nutrition" which is online store for dealing their goods and maintain their stock with complete trail of deals. It's of great opportunity for 'Marketing' purpose to the company as it allows customers to connect with Shoaib Sports outside the city.

## Projects

|              |                               |
|--------------|-------------------------------|
| MF Nutrition | Sep 2018 - Present (7 months) |
|--------------|-------------------------------|

Company: PUCIT Final Year Project

Tools: Android Studio

MF Nutrition stands for MaximaFitness Nutrition, is an e-commerce application mainly for the purpose of dealing nutrition for a company.

|                         |                               |
|-------------------------|-------------------------------|
| MaximaFitness Nutrition | Sep 2018 - Present (7 months) |
|-------------------------|-------------------------------|

Company: PUCIT Final Year Project

Tools: Python - Django Web Framework | JavaScript | HTML, CSS and Bootstrap

MF Nutrition is a Web based system to automate the dealings of Company as online store to deal their goods. This will keep track of every deal of their stock and maintains the record online. They would be able upload and maintain their stock by proper user interface and can also update the stock with at one shot with particular patterned .csv file.

**Company:** Semester Project

<https://github.com/NomanAbuBakar/Projects/tree/master/Java%20Socket%20Programming/Chatroom>

**Tools:** Java Socket Programming

It is two way chat application, process of exchanging messages between two systems continuously. Server maintains service by opening a connection on a socket and then receives clients at that port of socket then they can communicate on that connection.

## Web Based Messaging Application

Mar 2017 - May 2017 (2 months)

**Company:** Semester Project

<https://github.com/NomanAbuBakar/Projects/tree/master/Web%20Based%20Message%20Application>

**Tools:** Php and Mysql

It's a platform where you can register yourself and then can search other people and see their profile. You would be able to send and receive messages to the desired person.

## Awards

| Title  | Authority   | Date |
|--|---|------|
| Selected in PUCIT's Principle List (2 Times) | Punjab University College of Information and Technology (PUCIT) | 2017 |
| Merit Based Laptop Award                     | Provincial Government of Pakistan                               | 2013 |
